

Carrier Purifier for offices and accommodation

Main features:

Pre-filter

Use micron mesh filter, effectively block 2.5 mm fibrous particular matter. It can be cleaned easily.

Efficient HEPA filter

Removing the minor particles small to 0.3 micron.

Activated carbon filter

Removing volatile organic compounds and polluting gases.

UV lamp

Effectively kill a variety of common bacteria and viruses.

Air quality indicator

Excellent (Blue), Good (Green), Moderate (Purple), Poor (Red).

Wind speed adjustment

Wind speed can be adjusted in three steps

Automatic mode

Choosing the auto mode will give you the most appropriate fan speed.

Type	CAFN026LC2	CAFN036LC2	CAFN051LC2
Voltage	220-240V / 50-60Hz	220-240V / 50-60Hz	220-240V / 50-60Hz
Air capacity [m ³ /h]	210	410	610
Sound pr. [dB(A)]	25/32/42	25/35/54	25/35/58
Max. room size [m ²]	25	48	73
Weight [kg]	5.2	7.8	10
Dimensions [mm]	173x526x346	210x628x410	230x710x460

Vorfilter

Aus Nylon hergestellt, kann mehrfach ausgewaschen werden

HEPA-Filter

Weit verbreitet für medizinische Zwecke, absorbiert 2,5-0,3 µm Partikel

Aktivkohlefilter

5-10 Mal stärker als herkömmliche Kohlefilter

UV-Filter

Tötet bis zu 99,99% aller Viren und Bakterien
